

GRADE – 2
MATHEMATICS
SEGMENT-2

Time: 1 hour 30 minutes

Total marks - 25

GENERAL INSTRUCTIONS

- This set of worksheet has two parts, Part A and Part B.
- Use a dark-colored pencil to answer the questions on the worksheet.
- Use the worksheet itself for writing the answers.

PART- A

Q1. Tick the correct option for the following questions: (Attempt any 10)

(10 x 0.5= 5)

(i) Which unit of measurement is used to measure the length of a pencil?

- m
- cm
- inches
- foot

(ii) Solve the equation and select the best suitable answer for $890-270=$ _____

- 420
- 620
- 520
- 120

(iii) Read the time and select the correct option given below.

- 1:30
- 3:30
- 2:30
- 6:10

(iv) What is the value of a group of two \$1 bills?

- \$1
- \$2
- \$3
- \$4

(v) Select the shape that is divided into thirds.

▪

•

•

•

(vi) Add using hundreds, tens and ones mat $569 + 431 =$ _____

- 900
- 700
- 400
- 1000

(vii) Identify the measurement of the given object.

- 4 inches
- 4 cm
- 5 inches
- 5 cm

(viii) What is the total value of the given coins?

- 5 cents
- 8 cents
- 7 cents
- 9 cents

(ix) A set of objects arranged in equal groups.

- row
- array
- column
- line

(x) What is the currency used in India?

- Dollar
- Rial
- Dinar
- Rupee

(xi) Which shape has 5 sides and 5 vertices?

- Circle
- Pentagon
- Rectangle
- Trapezoid

(xii) The cost of a toy is Rs. 26. Select the correct option.

- 
- 
- 
- 

Q2. Fill in the blanks: (Attempt any 5)

$5 \times 0.5 = 2.5$

24, square, 10, PM, rectangle $3+3+3+3$, ¢

(i) _____ is a 2-D shape that has three or more straight sides.

(ii) An addition equation that represents 12 seeds is _____.

(iii) A day has _____ hours.

(iv) The value of 1 dime is _____ cents.

(v) Your mobile phone is in the shape of _____.

(vi) _____ is a symbol used to represent cents.

(vii) Mohan eats his lunch at 1 _____.

Q3. Write True or False: (Attempt any 4)

$4 \times 1 = 4$
